Per la realizzazione delle forometrie utilizzare adeguato strumento in funzione del materiale su cui deve essere installato il componente (per esempio CNC).

To detect where the holes must be drilled, use an appropriate tool in function of the material on which the component must be installed (for instance: CNC).

Pour la réalisation des trous nécessaires utiliser un instrument approprié en fonction du matériel sur lequel le composant doit être installé (par exemple CNC).

Für die Vornahme der Bohrlöcher geeignetes Werkzeug je nach dem Werkstoff, auf dem das Bauteil eingebaut werden soll (z.B., CNC).

Para detectar donde se deben taladrar los agujeros, utilice una herramienta adecuada en función del material sobre el cual se debe instalar el componente (por ejemplo: CNC).

Для выполнения требуемых отверстий используйте подходящий инструмент в зависимости от материала, на который будет устанавливаться компонент (например, ЧПУ).

根据安装本部件所在位置的材质情况 (例如CNC), 使用合适的工具制作孔型。

Per la realizzazione della cornice presa in continuità di vena contattare: sales@plhitalia.com

For the vein matching socket frame, please contact: sales@plhitalia.com

Pour réaliser le contour de la prise qui suit la veinure contacter : sales@plhitalia.com

Für die Ausfertigung des Rahmens der Steckdose mit durchgehender Maserung, sales@plhitalia.com kontaktieren

Para el marco de la toma de continuidad con la vena, contacte: sales@plhitalia.com

Для выполнения рамки розетки, повторяющей непрерывность прожилок напишите по адресу: sales@plhitalia.com

如需制作脉络连续的插座框架, 请联系: sales@plhitalia.com

Montaggio presa elettrica - *Electrical outlet assembly* - Montage de la prise électrique - *Montage der Steckdose* - Montaje de la toma eléctrica - *Монтаж электрической розетки* - 电插座安装
